A RE in receipt of an extensive assortment of new goods for fall and winter wear, comprising French and English cloths for dress and frock coats; cassimeres in a great variety of styles; silk, satin, merino, and velvet vestings; milled cloths, tweeds, &c., for overcoats; which will be made up to order, through the aid of as efficient a corps of cutters as can be found in the country—an essential point in the economy to which we would direct, and in rendering the style and character of our garments such as must satisfy the discriminating that our views of cheapness are not based on the production of any other than first-rate garments, such as have sustained our system of small profits and quick returns, and prompted the solicitation of a call from those who would really effect a saving of the extra percentage levied under the credit system.

The attention directed to the pantaleons department must continue to offer inducements to those who appreciate a fit combining case and elegance. In addition to the usual assortment of goods kept by the trade, we have always on hand ready-made dress and frock coats, pantaloons, vests, &c., to answer the requirements of those who, in cases of emergency, may require a first-rate suit. Also, fancy-dress articles in great variety; scarfs, cravata, handkerchiefs, gloves, suspenders, hosiery, undervests, drawers, linen and muslin shirts, collars, &c. Nov. 19—iff

DR. SWAYNE'S COMPOUND SIRUP OF WILD CHERRY,

cough, croup, and all diseases of the liver and lungs, broken constitution, &c.

THE above is the original and only genuine preparation from this valuable tree, and has won its way to public favor by its unparalleled success in curing all diseases of the lungs, notwithstanding the many articles prepared by persons who have no knowledge of the science of medicine, in theory or practice; and some, more readily to deceive the unsuspecting, such as "balsam of wild cherry," "Phænix balsam of wild cherry," "Phænix balsam of wild cherry," "Balsam of wild cherry, "thatam of wild cherry, and camfrey," &c.—all sprung up with a mercensry view, after Dr. Swayne's compound sirup of wild cherry had won a reputation in the healing art never to be forgotten by many a once cheerless fireside. Therefore the public should be on their guard, and purchase none but the original preparation, which is daily performing such astonishing cures in pulmonary complaints, after all remedies had failed, and the patients given up as hopeless. Thousands of certificates might be published, which would astonish credulity itself, but it is deemed unnecessary. Below we publish a few of the names of persons who have been cured by this wonderfal remedy:

is deemed unnecessary. Below we publish a lew of the names of persons who have been cured by this wonderful remedy:
Robert Glenn, steward of the almshouse near Frankford, teatifies to the efficacy of Dr. Swayne's compound sirup of wild cherry, in curing Valentine Chapman, one of the most aggravated cases of diseased lungs which has ever been placed upon record, after every other remedy had failed, and his physician had given him up as incurable.

Mrs. Brown, corner of Second street and Germantown road, Philadelphia, effectually cured of diseased lungs and the symptoms of incipient consumption, by using four bottles of Dr. Swayne's compound sirup of wild cherry.

R. Jackson, D. D., formerly pastor of the first Presbyterian church, New York, testifies to the efficacy of Dr. Swayne's compound sirup of wild cherry, and recommends it to the heads of families, having witnessed its wonderful effect in more than one hundred cases, in relieving children of every obstinate complaint, such as coughing, wheezing, choking of phegm, ashmatic attacks, &c.

Abraham Skinner, Crawford county, Pennsylvania, cured of a protracted cough, pain in the side and breast, &c., after being reduced to a mere skele ton.

Lance Osburn. Washington. Pennsylvania, cured

James Osburn, Washington, Pennsylvania, cured of consumption and bleeding of the lungs, after being given up by several eminent physicians, and having used most of the patent medicines.

This medicine, in all cases, gives immediate relief, and is a safe, pleasant, and effectual remedy, and worth a trial from the most skeptical.

MEDICAL DEPARTMENT.

MEDICAL DEPARTMENT.

The plan of instruction in this department of the University, presents peculiarities, to be found in no other school of medicine in the Union. The lectures commence on the 1st of October, and terminate on the 39th of June ensuing.

Owing to the length of the session, which embraces a period of nine months, three professors are enabled to perform all the duties which in other medical institutions are usually assigned to six; and the students are seldom required to attend more than two lectures on the same day. By this arrangement, the students have an opportunity of being well grounded in Anatomy, Physiology, and other elementary branches of medical science, before they investigate their applications in connexion with the study of the practice of Medicine and Surgery.

Immediately before each lecture, the students are subjected to a full and rigid examination on the preceding lecture, or on portions of approved textbooks. It is apparent that the plan, of which the outlines have been briefly stated, is one which allows the student to commence as well as to complete his medical studies in the institution, and presents a happy combination of the advantages of the system of instruction, by private pupilage and that of public lectures.

Any person of approved moral conduct may offer

or instruction, by private pupilage and that of public lectures.
